Summary

AMADEUS

e-Learning

Altéa Administration Departure Plan Template

As an administrator, discover how Amadeus helps you to manage your business operation activities and customise them according to your markets.

On this course, you will learn:
> What is Plan Template Management?

Through a set of interactive e-Learning lessons, learn how Altéa Administration organises markets using a Template Tree, identifies operation activities for both Flight Management and Customer Management, and assign activities to templates to set up the departure plan of a flight leg and for successful flight creation.

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	20 minutes	English	Awareness	No	No

Is this the course for you?

This course is for:

Airlines

In particular, those working in:

Administrators, Operations Managers, Trainers

This course helps you use

> Altéa Administration
> Altéa Departure Control - Customer Management (CM)
> Altéa Departure Control - Flight Management (FM)

How the course is organised

There is one mandatory e-Learning lesson. After completion, there is an instructor-led session available to request an enrolment. Finally, there are user guides available for download.

This course is also available in

English

What equipment do you need?

> A computer, laptop or tablette.
> A high-speed internet connection (> 1MB).
> The Google Chrome browser or alternatively the Microsoft Edge browser.
> An Amadeus login (LSS), organization ID (IATA code) and password.

amadeus

e-Learning

Altéa Administration Flight Management Business Rules

As an administrator, examine how Amadeus helps you to manage set of business rules to automate operational processes so that manual intervention is not needed to optimise Altéa Departure Control - Flight Management (FM) to align with your business goals.

On this course, you will learn:
> How to use markets to create Business Rules
> What is Flight Group Management?
> What are Rule Criteria Weights?
> What are Business Rules for Flight Management?
> What are Flight Create Business Rules?
> What are Active Flight Business Rules?
> What is Departure Plan Simulation?

Through a set of interactive e-Learning lessons, learn how to use markets and flight groups to create business rules, validate business rules for successful flight creation and troubleshoot business rule errors using Altéa Administration.

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	1 hour	English	Awareness	No	No

Is this the course for you?

This course is for:

Airlines

In particular, those working in:

Administrators, Operations Managers, Trainers

This course helps you use
> Altéa Administration
> Altéa Departure Control - Flight Management (FM)

How the course is organised
There are seven mandatory e-Learning lessons. After completion, there is an instructor-led session available to request an enrolment. Finally, there are user guides available for download.

This course is also available in
English

What equipment do you need?
> A computer, laptop or tablette.
> A high-speed internet connection (> 1MB).
> The Google Chrome browser or alternatively the Microsoft Edge browser.
> An Amadeus login (LSS), organization ID (IATA code) and password.

amadeus.com

amadeus

e-Learning

Altéa Departure Control - Customer Management

As an agent, learn about automating key processes from customer acceptance to flight departure that streamlines your activities for the best customer service.

In this e-Learning you will learn:
> How to get started
> What is the Altéa suite?
> How to complete customer acceptance tasks
> How to complete customer baggage and seating tasks
> How to complete customer assistance and regrade tasks
> How to complete boarding tasks
> How to complete disruption tasks

Using a set of simulations, learn how to accept customers, manage special service requests (SSR), modify flight itineraries, transfer customers and other tasks with Altéa Departure Control - Customer Management (CM). Each lesson is presented in a sequence for you to complete, ending with a test requiring a passing score of 100%.

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	8 hours + 50 minutes	English	Awareness	No	No

Is this the course for you?

This course is for:
> Airline Program Managers.
> Departure Control System Project Members.
> Airline trainers.
> Airline check-in and gate agents.

This course helps you use
> Altéa Departure Control - Customer Management (CM)

How the course is organised
First, there are forty-nine mandatory e-Learning lessons. After completion, there is an online test. After passing the test, there is an instructor-led session available to request enrolment. Finally, there are user guides available for download.

This course is also available in
English

What equipment do you need?
> A computer, laptop or tablet.
> A high-speed internet connection (< 1MB).
> The Google Chrome browser or alternatively the Microsoft Internet Explorer browser.
> An Amadeus login (LSS), organization ID (IATA code) and password.

> Last update: July 2021

AMADEUS

e-Learning

Altéa Departure Control - Flight Management

As a Load Controller, discover how Amadeus helps you to manage passengers and baggage, cargo, and fuel with precision, to boost productivity in your load control operations.

On this course, you will learn:
> How Altéa Flight Management interacts with other products
> How to navigate Flight Management
> How to add flight operating data
> How to navigate the Flight Information screen
> How to read messages, statuses and the Centre of Gravity graph
> How to read the Joining Passengers display and modify flight details
> How to identify an aircraft's weight, traffic load and forecast zero fuel weight
> How to build a Dry Operating Weight and Index
> How to manage deadload for a flight
> How to manage the load distribution
> How to manage fuel for a flight
> How to manage passenger and baggage figures
> How to update load and ramp clear
> How to depart a flight

Through a set of interactive e-Learning lessons, learn how Altéa Flight Management (FM) optimises load planning for baggage and cargo, manages fuel distribution, calculates the aircraft centre of gravity and issues documents and messages for flight departure.

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	2 hours + 30 minutes	English	Awareness	No	No

Is this the course for you?

This course is for:

Airlines, Ground Handlers

In particular, those working in:

Administrators, Air Traffic Control (ATC), Baggage Handlers, Business & Projects Managers, Help Desk & Support Agents, Load Controllers, Operations Managers, Trainers

This course helps you use
> Altéa Departure Control - Flight Management (FM)

This course is also available in
English

What equipment do you need?
> A computer, laptop or tablet.
> A high-speed internet connection (> 1MB).
> The Google Chrome browser or alternatively the Microsoft Edge browser.
> An Amadeus login (LSS), organization ID (IATA code) and password

aMaDEUS

e-Learning

Altéa Departure Control - Operational Flight Updates

As a ground handler, learn how to manage flight schedules for another airline when close to the departure date.

You will learn:
> How to create a flight date.
> How to create a flight period.
> How to update a flight date
> How to update a blockspace size.

Through a set of interactive videos learn how to manage flight dates, flight periods and block space using Altéa Departure Control - Operational Flight Updates (OFU).

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	40 minutes	English	Awareness	Yes	No

Is this the course for you?

This course is for:
> Staff performing ground handling activities.

Things you need for this course

Pre-requisite:
> Basic knowledge of Altéa DC-CM or Altéa DC-FM.

This course helps you use
> Altéa Departure Control - Customer Management (CM)
> Altéa Departure Control - Flight Management (FM)

How the course is organised

There are four interactive lessons with a total duration of 40 minutes.

This course is also available in

English

What equipment do you need?
> A computer, laptop or tablet.
> A high-speed internet connection (< 1MB).
> The Google Chrome browser or alternatively the Microsoft Edge browser.
> An Amadeus login (LSS), organisation ID (IATA or Ground Handler code) and password.

The last few details...
> Please note that access to this course is restricted to Amadeus customers.

amadeus

e-Learning

Altéa Inventory

Through a set of interactive e-Learning lessons, learn how Altéa Inventory (INV) automates schedules and re-accommodations, manages seating, handles special service requests and automates waitlist clearance.

On this course, you will learn:
> How to navigate Altéa Inventory
> How to install and log in to Altéa Inventory
> How Altéa Inventory works
> How Altéa Inventory works with other systems
> How to manage user access to Altéa Inventory
> How to work with Messenger
> What are Business Rules and markets?
> What are flight groups?
> How to get started with seating
> How to handle flight schedules
> How to handle re-accommodations
> How to read the flight date inventory panel
> How Altéa Inventory interacts with other products
> How the Altéa suite sends passenger information to a departure control system
> How the Altéa suite receives passenger information from a departure control system after flight departure
> How the Altéa suite sends passenger assistance lists to another airport
> What is Schedule Loader?
> How to load new flight schedules
> How to update flight schedules
> How to manage codeshare flights
> What is Automatic Waitlist Clearance?
> How to manage Automatic SSR Handling
> How to set up automatic SSR handling replies
> How to set up automatic SSR handling replies with a quota restriction
> How to set up automatic SSR handling replies belonging to a SSR family
> How to set up automatic SSR handling replies without a quota restriction
> What are Carrier Preferred Display service flows?
> How to get started with Revenue Integrity Desktop
> How to use the Revenue Integrity search engine
> How to use the rule editor to manage business rules
> How Amadeus Time Limits processes a PNR
> How to navigate Amadeus Time Limits screens
> How to create Amadeus Time Limits business rules
> What are the Amadeus Time Limits configurations?
> How to read Amadeus Time Limits logs
> How Group Time Limits processes a group PNR
> How to navigate Group Time Limits and set multiple time limits

This course covers the following topics:
> Getting started with Altéa Inventory
> Creating Business Rules
> Exchanging information within Altéa
> Using Schedule Loader
> Discovering other Altéa Inventory features
> Managing Automatic Special Service Requests
> Using Carrier Preferred Display
> Using Amadeus Revenue Integrity

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	6 hours	English	Awareness	No	No

Is this the course for you?
This course is for:

amadeus

e-Learning

Altéa Reservation and Ticketing

As a reservation agent, learn how to make reservations in the Amadeus Global Distribution System (GDS) using cryptic commands.

You will learn:
> How to get started
> What is Amadeus Air?
> What are PNR Mandatory elements?
> What are PNR Optional elements?
> How to modify a PNR
> How to work with itineraries and invoices
> How to price and use fares
> How to use ticketing
> How to use Amadeus Queues

Through a set of interactive e-Learning videos learn what is the Amadeus GDS and how to create and modify the elements of a Passenger Name Records (PNR) in order to issue a ticket using Altéa Reservation (Cryptic).

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	3 hours	English	Fundamentals	No	No

Is this the course for you?

This course is for:

Airlines

In particular, those working in:

Administrators, Fare Filing Agents, Help Desk & Support Agents, Inventory / Revenue Managers, Reservation Agents, Ticketing Agents, Trainers

This course helps you use
> Amadeus Reservation Desktop Essential
> Amadeus Reservation Desktop Web (ARDW)

How the course is organised
There are thirty mandatory e-Learning lessons with four supplementary lessons. Also, there are user guides available for download.

This course is also available in
English

What equipment do you need?
> A computer, laptop or tablet.
> A high-speed internet connection (> 1MB).
> The Google Chrome browser or alternatively the Microsoft Internet Explorer browser.
> An Amadeus login (LSS), organization ID (IATA code) and password.

amadeus

e-Learning

Altéa Reservation Desktop Web

As a reservation agent, process efficiently and swiftly passenger requests, in any part of their journey.

You will learn:
> What is ARD Web
> How to navigate ARD Web
> How to display a flight
> How to create a PNR with mandatory elements
> How to copy a PNR
> How to create an ancillary service and issue the EMD
> How to reissue an e-ticket
> How to reissue an EMD
> How to use an EMD to partially cover the price of a new e-ticket
> How to refund an e-ticket
> How to refund an EMD
> How to display Sales Reports

Through a set of interactive e-Learning, discover what Altéa Reservation Desktop Web (ARD Web) is and how to display flights, create a Passenger Name Record (PNR) and sell ancillary services, search for fares and price flights, issue and exchange documents using ARD Web.

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	3 hours + 15 minutes	English	Awareness	No	No

Is this the course for you?

This course is for:

Airlines

In particular, those working in:

Administrators, Fare Filing Agents, Help Desk & Support Agents, Reservation Agents, Ticketing Agents, Trainers

This course helps you use

> Amadeus Reservation Desktop Web (ARDW)

How the course is organised

First, there are fourteen mandatory e-Learning lessons. After completion, there is an instructor-led session available for request enrolment. Finally, there are user guides available for download.

This course is also available in

English

What equipment do you need?

> A computer, laptop or tablet.
> A high-speed internet connection (< 1MB).
> The Google Chrome browser or alternatively the Microsoft Edge browser.
> An Amadeus login (LSS), organization ID (IATA code) and password.

AMADEUS

e-Learning

Altéa Revenue Availability With Active Valuation

As an agent, learn about boosting your sales and 'bookability' with real-time Origin and Destination availability, computing with the whole PNR context, and protecting your critical O&D revenues with married segment control functionality.

On this course, you will learn:
> What is revenue management?
> What Amadeus products are involved in the revenue optimisation process?
> What is revenue optimisation?
> How to distribute seat availability
> What is the difference between basic and advanced inventory controls?
> What is revenue availability?
> What is active valuation?
> What is a yield?
> What is a bid price?
> What is married segment control?

Through a set of videos learn how to calculate revenue availability, retrieve and adjust yield in Altéa Inventory (INV), identify different types of bid price and how yield works with bid price using Altéa Revenue Availability With Active Valuation (RAAV).

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	30 minutes	English	Awareness	No	No

Is this the course for you?

This course is for:

Airlines

In particular, those working in:

Inventory / Revenue Managers, Trainers

This course helps you use

> Altéa Revenue Availability With Active Valuation (RAAV)

How the course is organised

There are ten mandatory e-learning lessons. After completion, there are user guides available for download.

This course is also available in

English

What equipment do you need?

> A computer, laptop or tablette.
> A high-speed internet connection (> 1MB).
> The Google Chrome browser or alternatively the Microsoft Edge browser.
> An Amadeus login (LSS), organization ID (IATA code) and password.

amadeus

Instructor-Led

Amadeus Altéa DC - CM Advanced

This course provides hands-on exercises focusing on practical scenarios involving customer handling activities in the operational window.

On this course, you will learn how to:
> Describe the relationship between Altéa DC-CM and Altéa Administration.
> Interpret the business rules affecting customer handling activities including acceptance, seating, baggage, boarding and post departure process.
> Evaluate how the business rule relates to the departure plan activities.

This course covers the topic of analysis of the components and elements that influence specific customer handling scenarios in the following areas:
> Customer acceptance
> Printing Documentation
> Baggage Handling
> Flight Information
> Seating Management
> Post departure procedure

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	2 days	English	Advanced	Yes	No

Is this the course for you?

This course is for:
> DCS system administrators
> DCS Trainers
> Help Desk & Support Agents

Things you need for this course

Pre-requisite:
Have successfully passed ALL the courses below:
> Amadeus Altéa DC-CM Certification
> Amadeus Altéa DC-CM Business Rules
> Amadeus Altéa DC-CM Departure Plan Template & Departure Control

Also be familiar with Altéa DC-CM and customer handling activities at an airport.

This course helps you use
> Altéa Administration
> Altéa Departure Control - Customer Management (CM)

Related courses
> Amadeus Altéa DC-CM Certification [Instructor-Led]

AMADEUS

Instructor-Led

Amadeus Altéa DC Aircraft Engineering and Business Database

The Altéa Departure Control Aircraft Engineering and Business Database course describes the process of constructing and maintaining carrier and aircraft weight & balance engineering data using the Database Maintenance Tool (DBM).

On this course, you will learn about the:
> Development of appropriate aircraft engineering data.
> Process of entering such data into the database using the DBM.
> Engineering/mathematical functions within Flight Management (FM) that are essential to the development of aircraft database configurations.
> Data-building philosophy.
> Testing and pre-implementation acceptance processes including any regulatory considerations.

This course covers the following topics:
> General engineering parameters
> Hold Data & ULD Configurations
> General limitations
> CG limits & lateral imbalance, Stabiliser trim
> Service weight adjustments and potable water
> Fuel tanks and distributions, Cabin layouts
> Aircraft business rules Flight creation process
> Integration of DBM data with other Altéa applications
> Autoload, General load control business data

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
Yes - pass mark: 75%	4 days	English	Advanced	Yes	No

Is this the course for you?

This course is for:
> Airlines in PSS migration.
> Airline staff responsible for the development of engineering limitations data.
> Airline staff responsible for importing and maintenance of carrier and aircraft data used for weight and balance functions of Flight Management.

Things you need for this course

Pre-requisite:
> Be involved in the maintenance of carrier and aircraft engineering records.
> Have a good understanding of aircraft weight and balance limitations and their utilisation within the ramp, load control and flight operations environments.
> Be familiar with IATA AHM565 documentation.
> Have successfully passed one of these courses:
Altea Departure Control - Flight Management awareness e-learning (3 hours)
Altéa DC-FM Certification

Amadeus Altéa DC Aircraft Engineering and Business Database General Refresher

This one-day training is a refresher of the initial Amadeus Altéa DC Aircraft Engineering and Business Data DBM training. The content is a pre-defined high-level training, limited to some of the more complex concepts of the initial training that may be difficult to follow by referencing the user guide only.

On this course, you will learn about the:
> Development of appropriate aircraft engineering data (review).
> Process of entering such data into the database using the DBM (review).
> Engineering/mathematical functions within Flight Management (FM) that are essential to the development of aircraft database configurations (review).
> Data-building philosophy (review).
> Testing and preimplementation acceptance processes including any regulatory considerations (review).

This course covers the following topics:
> Overview of general data concepts
> Overview of cargo hold data and processing
> Overview of fuel data and processing
> Overview of Center of Gravity data and processing
> Overview of flight creation

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	1 day	English	Advanced	Yes	No

Is this the course for you?

This course is for:
> Airlines hosted on Altéa Flight Management.
> Airline staff responsible for the development of engineering limitations data.
> Airline staff responsible for importing and maintenance of carrier and aircraft data used for weight and balance functions of Flight Management.

Things you need for this course

Pre-requisite:
> Have attended the initial Amadeus Altéa DC Aircraft Engineering and Business Database course (4 days).

This course helps you use
> Altéa Departure Control - Flight Management (FM)

Related courses
> Amadeus Altéa DC-FM Certification [Instructor-Led]

Instructor-Led

Amadeus Altéa DC Aircraft Engineering and Business Database Modular Refresher

This one-day training is a refresher of the initial Amadeus Altéa DC Aircraft Engineering and Business Data DBM course. The content is tailored to the needs of the customer by offering pre-defined modules for the customer to select from. This course is appropriate for customers looking for more detailed refresher training on specific areas of data configuration.

On this course, you will learn about the:
> Development of appropriate aircraft engineering data (review).
> Process of entering such data into the database using the DBM (review).
> Engineering/mathematical functions within Flight Management (FM) that are essential to the development of aircraft database configurations (review).
> Data-building philosophy (review).
> Testing and preimplementation acceptance processes including any regulatory considerations (review).

The customer builds its own agenda, selecting up to 4 of the following topics:
> General Data Concepts: Effective Dates, Data Organization, Data Structure, DBM navigation
> Hold Data: basic DBM data configuration of BPPs and ULD Groups, full width records and locks
> FM processing of Hold Data: FM processing of cargo hold ULD group data during the approve distribution process
> Fuel Data: basic fuel tank and distribution configurations and FM processing
> Centre of Gravity Envelopes: basic DBM configuration and FM processing
> Flight Create and Flight Create Business Rules, DPS
> Open Questions

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	1 day	English	Advanced	Yes	No

Amadeus Altéa DC-CM Business Rules

This course describes business rules that define the behaviour of Amadeus Altéa Departure Control - Customer Management.

On this course you will learn how to:
> Create and maintain markets within Market Management.
> Create and maintain Flight Groups within the Altéa Administration user interface.
> Identify the impact business rules have on the behaviour of Customer Management.

This course covers the following topics:
> Market management
> Flight groups
> Understanding the weighting concept
> Advance passenger information service rules
> Customer acceptance rules
> Baggage acceptance rules
> Boarding pass and baggage tag printing rules
> Transfer rules
> Onload / Regrade rules
> Flight information rules

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
Yes - pass mark: 85%	2 days	English	Certification	Yes	Yes

Is this the course for you?

This course is for:
> Airlines in PSS migration
> Airline staff responsible for setting up the Customer Management Business Rules
> Airline trainers

Things you need for this course

Pre-requisite:
Have successfully passed:
> Altéa DC-CM Certification

Or
> Familiar with Amadeus Altéa Customer Management and baggage handling activities at an airport

Prework:
To ensure that you are familiar with our products before attending the training, we recommend you complete following e-learning:

Amadeus Altéa DC-CM Certification

This course explains in detail the customer check-in features of Amadeus Altéa Departure Control - Customer Management.

On this course, you will learn how to :
> Navigate the Customer Management user interface.
> Access each application to process a customer for acceptance and boarding.
> Manage disruption scenarios and their impact on Customer Management.

This course covers the following topics:
> Monitoring the Regrade and Onload lists.
> Using the Boarding monitor and activities.
> Working with departure plan activities.
> Closing boarding and flight departure.
> Working with flight disruptions (re-accommodation).

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
Yes - pass mark: 85%	5 days	English	Certification	Yes	Yes

Is this the course for you?

This course is for:
> Airlines in PSS migration.
> Airline administrators performing customer service activities.
> Airline trainers.

Things you need for this course

Amadeus Altéa DC-CM Departure Plan Template & Departure Control

This course describes how to automate Departure Control by programming activities at pre-determined times before and after departure of an aircraft (for example, the issuing of post departure messages) using Amadeus Altéa Departure Control - Customer Management.

During this course you will learn how to:
> Create, delete and modify a departure plan template.
> Set activities and dependencies.
> View and update the Departure Plan for a specific flight in the Customer Management user interface.

This course covers the following topics:
> Identifying the market template levels.
> Creating templates.
> Modifying templates.
> Adding and deleting activities.
> Ignoring and replacing activities.
> Deleting templates.
> Adding dependencies.

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
Yes - pass mark: 85%	1 day	English	Certification	Yes	Yes

Is this the course for you?

This course is for:
> Airlines in PSS migration
> Airline staff responsible for setting up Customer Management activities.
> Airline trainers.

Things you need for this course

Amadeus Altéa DC-FM Business Rules & Departure Plan Simulation

This course describes how business rules can modify Amadeus Altéa Departure Control - Flight Management's behaviour and align it with your business goals. Generally, the business rules are applied either at flight creation or at different stages of the flight life cycle including the operational window. These two phases are called Flight Create business rules and Active Flight business rules respectively.

In this course you will learn how to:
> Create and maintain markets within Market Management.
> Create and maintain flight group keywords within Flight Group Management.
> Work with the weighting concept.
> Create and verify mandatory business rules.
> Identify the impact that business rules have on the behaviour of Flight Management.

This course covers the following topics:
> Market Management.
> Flight Group Management.
> Rule Criteria Weights.
> Rule Creation.
> Rule Management.
> Flight Create Business Rules.
> Active Flight Business Rules.
> Departure Plan Simulation.

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
Yes - pass mark: 85%	2 days	English	Certification	Yes	Yes

Is this the course for you?

This course is for:
> Airlines in PSS migration.
> Airline staff and airline trainers responsible for setting up the Altéa Departure Control - Flight Management Business Rules.
> Airline system administrators.

Things you need for this course

Pre-requisite:
Have successfully passed:
> Amadeus Altéa DC-FM Certification.

Or
> Familiar with Amadeus Altéa Flight Management as well as weight and balance activities at an airport.

Prework:
To ensure that you are familiar with Amadeus products before attending the training, we recommend you complete the following e-Learning:
> Altéa Administration Flight Management Business Rules awareness (1 hour)
> Altéa Departure Control - Flight Management awareness (2.5 hours)

This course helps you use
> Altéa Administration
> Altéa Departure Control - Flight Management (FM)

Amadeus Altéa DC-FM Certification

This course describes in detail the load control process and the modules associated with load control in Amadeus Altéa Departure Control - Flight Management.

On this course, you will learn to:
> Prepare flights for departure through the load control process.
> Produce documentation relating to the load control process.
> Identify Altéa DC-FM functionality for other system users.
> Understand Altéa DC-FM from the perspective of roles such as freight agent, ramp agent and supervisor.
> Perform the role of load controller, ramp agent or freight agent through demonstrations and exercises.

This course covers the following topics:
> Altéa system architecture
> Flight information
> Deadload
> Load distribution
> Passenger data
> Down-line port restrictions
> Offline - Online flight scenario
> Domain allocation
> Load control supervisor
> Disruption management
> Ramp sub applicatiion
> Freight sub application
> Documentation

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
Yes - pass mark: 85%	5 days	English	Certification	Yes	Yes

Is this the course for you?

This course is for:
> Airlines in PSS migration
> Airline staff responsible for designing and delivering end user training and implementation of Amadeus Altéa DC - Flight Management.

Things you need for this course

Pre-requisite:
Be familiar with:
> Flight Management Departure Plan activities.
> Load control activities.
> Airline business procedures.

Prework:
> To ensure that you are familiar with our products before attending the training, we recommend you complete the following e-learning (3 hours):
Altea Departure Control - Flight Management awareness

This course helps you use
> Altéa Departure Control - Flight Management (FM)

How the course is organised
> 5 days training

Amadeus Altéa DC-FM Departure Plan Template & Departure Control

This course describes how to automate Altéa Departure Control by programming activities in Flight Management at predetermined times before and after the departure of an aircraft.

In this course you will learn how to:
> Access and navigate Altéa Administration.
> Work with the Plan Template Management application to create and maintain template levels and activities.
> Delete and modify a template containing a specific set of activities.
> Search, view and update the Departure Plan for a specific flight in Flight Management.

This course covers the following topics:
> Managing the Departure Plan Template.
> Creating, modifying and deleting templates.
> Assessing the impact of the Departure Plan Template in Flight Management.

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
Yes - pass mark: 85%	1 day	English	Certification	Yes	Yes

Is this the course for you?

This course is for:
> Airlines in PSS migration.
> Airline staff responsible for setting up Flight Management departure plan activities.
> Airline system administrators.

Things you need for this course

Pre-requisite:
Have successfully passed:
> Amadeus Altéa DC-FM Certification.

Or at least familiar with Amadeus Altéa Flight Management as well as weight and balance activities at an airport.

Prework:
To ensure that you are familiar with Amadeus products before attending the training, we recommend to complete the following e-Learning:
> Altéa Administration Departure Plan Template awareness (20 minutes)
> Altéa Departure Control - Flight Management awareness (2.5 hours)

This course helps you use
> Altéa Administration
> Altéa Departure Control - Flight Management (FM)

Amadeus Altéa DC-FM Wide Body Freighter Functionality (Cargo)

This course describes in detail the load control process to manage wide body freighters in Amadeus Altéa Departure Control - Flight Management.

On this course, you will learn how to:
> Navigate and use Altéa DC-FM.
> Build ULDs using the wide body Main Deck Loading functionality.
> Manually distribute the load on the Main and Lower Decks.
> Accept passengers (*e.g. grooms, couriers, and attendants*).
> Produce relevant documentation, Loadsheet, LIR, VGLIR, LDM, CPM and UCM.

This course covers the following topics:
> Freighter functionality focusing on Deadload, Deadload details and Load distribution screens
> Passenger acceptance
> ULD creation - Pallet
> DGSL
> Temperature and ventilation
> Documentation
> Messages
> Ground stability

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
Yes - pass mark: 85%	2 days	English	Advanced	Yes	Yes

Is this the course for you?

This course is for:
> Airline staff responsible for designing and delivering end user training and implementation of freighter functionalities in Amadeus Altéa Departure Control - Flight Management.

Things you need for this course

Pre-requisite:
You need to be familiar with:
> The Altéa DC-FM solution.
> Flight Management Departure Plan activities.
> Load control activities.
> Airline business procedures.

Prework:
> To ensure that you are familiar with our solutions before attending the training, complete the following e-learning (3 hours):
Altea Departure Control - Flight Management awareness

This course helps you use
> Altéa Departure Control - Flight Management (FM)

How the course is organised
> 2 days training for airline agents who have passed the Altéa DC-FM certification
> or 5 days training including an Altéa DC-FM certification

Amadeus Altéa DCS Help Desk for Airlines

This course gives a global picture of the Altéa DCS process flows, covering flight creation to post departure. It also explains how airlines help desk agents should support Altéa Customer Management and Flight Management users in solving their daily issues.

In this course you will learn how to:
> Investigate most of the common incidents.
> Understand the flow of the flight cycle.
> Search for information in order to solve or reject an incident.
> Navigate the different Altéa solutions to identify missing information or wrong settings.
> Follow the procedures to report incidents.

This course cover the following topics:
> Incident handling and reporting
> Altéa solution system architecture
> JFE access issues
> Failure to create a flight
> Seating management
> Baggage management
> Device and printing management
> Flight history in Altéa DC-FM
> CM/FM 'link is down' scenarios
> First steps of a problem investigation

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	3 days	English	Certification	Yes	No

Is this the course for you?

Amadeus Customer Service Point

A self-paced learning on how to use Amadeus Customer Service Point (ACSP).

You will learn:
> What is ACSP
> How to navigate ACSP
> How to set up your ACSP account
> How to open an incident record
> How to open a work order
> How to open a record
> How to check a record status
> How to verify and close an incident record
> How to verify and close a work order

As an Amadeus customer, submit an inquiry on an Amadeus product using **Amadeus Customer Service Point** (ACSP). Through a set of interactive videos learn how to open, verify and close inquiries including both work orders (WO) and incidents (IR).

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	20 minutes	English	Awareness	No	No

Is this the course for you?

This course is for:

Airlines

In particular, those working in:

Help Desk & Support Agents, Operations Managers, Trainers

This course helps you use
> Amadeus Customer Service Point

How the course is organised
9 interactive lessons with a duration of 20 minutes.

What equipment do you need?
> A computer or tablette.
> A high-speed internet connection.

Instructor-Led

Amadeus Digital Awards

This course focuses on how to configure Cash to Miles conversion rules through the Amadeus FareXpert filing platform. The conversion rate defined in these rules can feed an airline's online channel (Digital Awards) or the offline channel (ARD Web) or both. It allows frequent travellers to book air travel and settle the price of a ticket either in currency, or in miles, or in a combination of both.

On this course you will learn how to:
> Describe the Award Converter and the Miles & Cash slider logic.
> Access to the 'Cash to Miles conversion' module in FareXpert.
> Create, duplicate, edit a conversion rule for commercial and redemption booking classes.
> Create adhoc promotions.
> Differentiate the conversion process of fares from the one for Ancillary Services and Taxes.
> Create specific conversion rules for Marginal fares.

This course covers the following topics:
> Product overview of the Digital Awards suite (Converter Engine, Award converter and Miles & Cash slider)
> How to access the FareXpert Cash to Miles conversion module.
> How to create cash to miles conversion rules (various use case scenarios).

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	3 days	English	Fundamentals	Yes	No

Is this the course for you?

This course is for:
> Airlines in PSS or standalone migration
> Airline Fares and Pricing administrators, loyalty programme administrators, online booking tool administrators.

This course helps you use
> Amadeus e-Retail
> Amadeus FareXpert
> Amadeus Flex Pricer

Things you need for this course

Amadeus e-Retail Engine for New Users

This course describes how a booking engine works and interacts with the reservation system whether as a standalone solution or integrated into an external website.

During this course you will learn how to:
> Use the online booking engine
> Configure Site Manager
> Differentiate between the different search flows
> Follow the steps of the Workflow Manager
> List the different digital solutions available
> Navigate through the test and validation tool called the HTML shooter

This course covers the following topics:
> Overview of e-Retail Engine concepts and terminology
> Implementation process
> Schedule driven and Fare driven booking flows
> Introduction to Site Manager
> Basic Site Manager exercises
> Enhancing the offerings of a site
> Options to customise a site
> Light overview on how to integrate e-Retail with an external website (Connectors)
> Use the test and validation tool called the HTML shooter
> Booking insurance in-Retail Engine

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
Yes - pass mark: 85%	3 days	English	Certification	Yes	No

Is this the course for you?

This course is for:
> Staff managing an airline's direct online sales channel (www.airline.com)
> Airlines in PSS or standalone migration

This course helps you use
> Amadeus e-Retail
> Amadeus Flex Pricer

Things you need for this course

Pre-requisite:
> Basic knowledge on GDS (not a must)
> Be familiar with an online booking tool

How the course is organised
> 3 days training

Amadeus FareXpert Dynamic Fares

This course explains how to use Amadeus FareXpert Dynamic Fares to create discounts based on existing published, private and negotiated fares.

On this course you will learn how to:
> Create discounts based on passenger type codes, fare type codes, international and domestic fare types.

This course covers the following topics:
> Dynamic Fare Overview.
> Create Promotion Fares.
> Create Vendor Aggregate.
> Create Promotion Fares with Rule Conditions, ATPCO CAT 15 Private Fares and Amadeus FareXpert.

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	1 day	English	Fundamentals	Yes	No

Is this the course for you?
This course is for:
> Airlines in PSS migration

Things you need for this course
Pre-requisite:
Bring a basic knowledge of fares and fare filing, as well as Amadeus PNR creation.

Have successfully passed the following course:
> Amadeus Farexpert Negotiated Fares

This course helps you use
> Amadeus FareXpert

How the course is organised
> 1 day training

What equipment do you need?
View our instructor-led requirements.

The last few details...
Important to note: The Amadeus FareXpert filing platform is a set of applications (modules) which enable real-time filing into the Amadeus database. For productivity and consistency purposes, all applications have been grouped under this platform. Every FareXpert based module addresses a specific filing need and thus targets potentially very different audiences. It is therefore key to cleary identify to which FareXpert module reference is being made. The Amadeus FareXpert Dynamic Fares training course is covering the FareXpert based Promotions module.

Instructor-Led

Amadeus Flex Pricer

This course describes how Flex Pricer as a shopping engine fits into airline direct distribution channels (digital '.com', NDC, Call-Center, Group Management). Main focus during this course is how to access and administer the FareXpert based Airlines Fare Families module.

On this course, you will:
> Identify Flex Pricer concepts, terminology and architecture.
> Create Commercial Fare Families (CFF), Markets, and Fare Families (FF) using the Amadeus FareXpert filing platform
> Explain the interdependancies of updates in FareXpert and the administration tool of the front-end application (e.g. Site Manager).

This course covers the following topics:
> Flex Pricer specific terminology and architecture.
> How to access the Airlines Fare Families module which is based on the Amadeus FareXpert filing platform.
> How to create a Commercial Fare Family, Markets, and Fare Families.
> How to use Location-, Vendor-, and Market Aggregates within FareXpert.
> How updates in FareXpert impact the administration tool of the front-end application (e.g.: Site Manager).
> **Note:** Flex Pricer and/or the FareXpert based Fare Families modules can be used in an airline direct (online) channel, and in other contexts such as: ARD Web, NDC, Amadeus Group Manager

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
No	2 days	English	Fundamentals	Yes	No

Is this the course for you?
This course is for:
> Airlines in a PSS migration
> Airline staff involved in the decision taking around which fares / brands should be filed and promoted through the direct online distribution channels (web '.com', NDC, Groups or Call-Center).
> The course is key for those staff members having to use FareXpert to create and administer Commercial Fare Families (CFF), Markets and Fare Families (FF).

Things you need for this course
Pre-requisite:
> Basic understanding of Fares and Fare filing
> Understanding of airline's direct distribution channels (website '.com', NDC, Groups, Call-Center).

Amadeus Negotiated Space Certification

This course describes how to use Amadeus Negotiated Space to best define blocked space and assign it to preferred travel agents, while retaining full synchronisation with your inventory system. This is an essential feature for your distribution to cruise lines, tour operators and other consolidators.

On this course, you will learn how to:
> Set up and maintain points of sale for handling tables and block management.
> Define availability and sell options.
> Create and maintain Negotiated Space handling table parameters.
> Create and modify Negotiated Space blocks.
> Retrieve and read the history.
> Run dashboards or reports.
> Request access authorisation.

This course covers the following topics:
> Creating and maintaining handling records.
> Setting up and modifying the Point of Sale.
> Creating and modifying Amadeus Negotiated Space blocks.
> Reading the history.
> Running dashboards or reports.
> Requesting access to the product.
> Certification test.

Amadeus Reservation and Ticketing Web Certification for New Users

This course provides hands-on experience on Amadeus Altéa Reservation Desktop Web (ARD Web) to New Users who do not have cryptic knowledge.

On this course you will learn how to:
> Use the graphical environment of Altéa Reservation Desktop Web (ARDW).
> Improve customer service with best practices.

This course covers the following topics:
> Understanding the ARDW environment and architecture.
> Requesting an availability, informative pricing, schedule and timetable display.
> Creating a Passenger Name Record (PNR).
> Modifying a PNR and interpreting its history.
> Working with Queues.
> Displaying fare information and pricing PNRs.
> Issuing, revalidating and reissuing e-tickets.
> Issuing, reissuing and managing EMDs.
> Displaying sales reports.
> Refunding and voiding documents.

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
Yes - pass mark: 85%	5 days	English	Certification	No	Yes

Is this the course for you?

This course is for:
> Airlines in PSS migration
> Airline help desk agents.
> Airline trainers.
> Airline reservation and ticketing agents.

Things you need for this course

Prework:
> To ensure that you are familiar with ARD Web before attending the training, we recommend you complete the following e-learning (3 hours):

Altea Reservation Desktop Web awareness (3 hours)

> If you need to learn cryptic commands you should also complete the following e-Learning:

Altea Reservation and Ticketing (Cryptic) (3h)

Ticketing in Amadeus - Cryptic (1h)

This course helps you use

> Amadeus Reservation Desktop Web (ARDW)

Amadeus Revenue Accounting Certification

This course helps you to understand, configure and operate Amadeus Revenue Accounting baseline modules, as a solution for real-time revenue recognition during all document life cycles (from sales to usage and interline billing).

On this course you will learn how to:
> Understand integrated ARA architecture in Altéa and its main core modules.
> Work on tasks related to each module.
> Set up ABR rules related to ARA baseline modules.
> Apply best practices for an effective configuration.

This course covers the following topics:
> Accounting
> Sales
> Taxes
> Usage
> Exchange and refund
> Agency Memo
> Task handling module
> Online reporting
> GSA commission
> Codeshare
> Proration
> Interline
> FIM

Certification:	Duration:	Language:	Level:	Pre-requisite:	Prework:
Yes - pass mark: 85%	10 days	English	Certification	Yes	Yes

Is this the course for you?

This course is for:
> Airlines migrating to Amadeus Revenus Accounting
> Revenue accounting airline agents, subject-matter experts.
> Business Process Outsourcing providers.

Things you need for this course

Pre-requisite:
> Familiarity with airline business processes.
> Practical knowledge of ticketing processes.

Prework:
> To ensure that you are familiar with our products before attending the training, we recommend you complete the following e-learning (1 hour):
Ticketing in Amadeus - Cryptic
