Amadeus Altéa DC-FM Business Rules & Departure Plan Simulation

This course describes how business rules can modify Amadeus Altéa Departure Control - Flight Management's behaviour and align it with your business goals. Generally, the business rules are applied either at flight creation or at different stages of the flight life cycle including the operational window. These two phases are called Flight Create business rules and Active Flight business rules respectively.

In this course you will learn how to:

- > Create and maintain markets within Market Management.
- > Create and maintain flight group keywords within Flight Group Management.
- > Work with the weighting concept.
- > Create and verify mandatory business rules.
- > Identify the impact that business rules have on the behaviour of Flight Management.

This course covers the following topics:

- > Market Management.
- > Flight Group Management.
- > Rule Criteria Weights.
- > Rule Creation.
